

PRESERVE OUR ULTIMATE RESOURCE

DRAYTON VALLEY
'Pulling Together'

THE WATER CONSUMPTION REDUCTION PROGRAM - RESIDENTIAL

Replace your old water-guzzling toilet with one of the water efficient types listed below and not only will you get money back, but you'll save on your water bill and help to preserve our ultimate resource!

This program will run for the 2016 calendar year, meaning that all water consumption reducing installations must be completed before December 31st to qualify.

The program applies to any and all homeowners connected to Town water service who choose to install approved water saving devices which reduce the amount of water consumed in their residences. These devices are:

- WaterSense certified toilets (low flush, dual flush, waterless)
- WaterSense certified urinals (low flush, waterless)
- Water pressure reducers
- Energy Star (high efficiency) washing machines
- Rain Barrel Systems (conditions apply)
- Energy Star (high efficiency) dishwashers

Residents who make a change to their home through one or more of these initiatives will be given a credit of \$100 on their Town utility bill.

Additionally, each change gives the resident one entry in a draw for a credit of \$500 on their Town utility bill (eg. two low flush toilets installed = 2 draw entries). The successful applicant can keep the credit on their account or they may transfer the full credit of \$500 to another Town of Drayton Valley residential account. If the drawn name is of someone who is no longer a resident of the Town of Drayton Valley, they are no longer eligible for the credit and another name will be drawn. The credit will apply if that individual has relocated to another residence within the Town of Drayton Valley.

In order to receive their credit, residents must provide the Town with proof of purchase and installation of the device (eg. store receipt and tradesperson's receipt), along with the attached form completed with your information, including a valid Town utility account number. If necessary, to verify the installation of a device, the applicant must agree to arrange for access to the residence to Town personnel.

Environment Canada reports that toilets account for 30% of the water consumed in an average Canadian household. One simple change can make a significant difference to your water bill and to the world!!

PROGRAM

Copies of your original store receipt and receipt for installation is required to qualify for this credit. Name of manufacturer and model number must also be provided.

Please complete and return this form with copies of your original receipts to receive a \$100 credit on your Town utility account.

Please print clearly

Applicant's Name

Address of Installation

Town Utility Account Number

Telephone Number(s)

E-mail Address

Toilet or Device Manufacturer

Toilet or Device Model Number

One credit of \$100 per residence. Incomplete forms will not be eligible for credit. Please allow up to 8 weeks for the credit to appear on your utility statement.

Signature

Date

I acknowledge that the device has been installed at the address shown above and that all information provided herein is true and accurate. I hereby consent allowing staff of the Town of Drayton Valley to verify any of the information supplied by me on this form. I have not previously received a credit for the POUR Water Program for this residence.

Please check if you are willing to allow the Town to monitor your water consumption to report to the community the benefit of water conservation devices. All personal information (name, address, etc.) will remain confidential.
