FCSS Application for Board Membership - Addendum

Reasons for applying

I was asked to consider applying for this position based on my financial background and volunteering experience with FCSS. I am applying because I believe I can provide valuable service to the organization with my financial expertise. I also believe my volunteering experience with FCSS and many other organizations provides a solid foundation to provide effective governance and accountability as a board member.

Related experience

I have been a staff accountant at Feddema & Company Chartered Accountants here in Drayton Valley since October 2007 and received my Chartered Accountant designation in January 2010. I have extensive experience in financial matters especially as they relate to small businesses and not-for-profits.

Since September 2014 I have been treasurer of the Rotary Club of Drayton Valley where I have first-hand experience with the day-to-day issues not-for-profits encounter and all the financial duties incumbent to the position, including preparing and tracking an operating budget. Prior to becoming the treasurer I prepared capital budgets and tracked the expenditures for the \$1.1 million Rotary House project serving local not-for-profits in Drayton Valley. I also prepared grant requests for the project.

At University I served for two years on committees that awarded funding to student service groups based on applications for both new and ongoing operating funds, capital projects, and other special projects.

Since March 2012 I have been involved with FCSS as a volunteer for the Making Financial Cents program. With my young family I also participate in many of the community programs put on by FCSS throughout the year.

The reason for my application is a desire and willingness to participate further in community affairs

RELATED EXPERIENCE: Given my personal struggles and firsthand experience with crises in my own life, I feel I have a valuable perspective to contribute to the FCSS board, and would be honoured to do so. I quite literally owe my life to the intervention of community programs and caring individuals within my community. This is why I feel compelled to give back.
