

Inter-municipal Cooperation Did you Know?

The Town of Drayton Valley maintains partnership agreements with both Brazeau County and Parkland County to ensure that our entire community has access to the services offered by the Town. These agreements outline payment for services in areas such as sports fields, recreation facilities, Fire Service. The Town pays Brazeau County for services as well. When we work together with a united purpose, we find that we can achieve far more than any of us can individually.

Explore Your Environment

Drayton Valley has an extensive trail system that links up with the majority of our parks and playgrounds as well as components in our neighboring Municipality, Brazeau County. Eagle Point Blue Rapids Parks Council also has plans for further connections to get you from downtown to riverside scenically.

Connect With Your Neighbors

Through our Community Services Department and the local Family and Community Support Services (jointly funded by the Town, Province and Brazeau County) many community events transpire to enable you an opportunity to connect with residents in our community, such as:

- Canada Day
- Haunted House
- Lil Raskals Garage Sale (put on by ECDC)
- 55+ Alive

Achieve Your Goals

The strength of our community is easy to see; our residents are joining together for projects. Our business community is collaborating with human services agencies, and Councils for both the Town of Drayton Valley and Brazeau County are collaborating in areas as diverse as infrastructure and arts & culture.

The local municipalities serve the entire region but in different ways. By recognizing that each municipality has its own strengths, we can collaborate with one another to market our community, attract new business and workers, and create a better, richer quality of life for us all.
